TRAINING**

**GET REAL-WORLD TRAINING  
WITH THE HDD VR SIMULATOR.**

# AS REAL AS IT GETS WITHOUT ALL THE MUD.

Welcome to the future of HDD training with Virtual Reality, an interactive experience taking place within a simulated environment. The perfect middle ground option between actual jobsite experience and the classroom, our new VR Simulator helps deliver the most comprehensive training for you and your crew. You'll be able to tackle the demands of a wide range of challenges that you might face in the real world, while fine-tuning your on-the-job skills.

## ADVANTAGES OF HDD VR SIMULATOR

Give your crew the opportunity to be field-ready in a controlled environment. Keep them—and your equipment—protected during crucial training sessions.

- Realistic, hands-on drill operation training in a simulated jobsite environment without the use of live equipment/jobsites
- Bridges gap between training, practice and on-the-job experience
- Allows operators to engage with the technology and equipment in a more convenient, lower-risk setting
- Enhances operational skills and increases jobsite efficiency

## SAFETY PROCEDURES

At Ditch Witch®, safety is a virtue. Learning valuable safety procedures in a simulated setting gives your crews the experience they need to protect themselves and others on an actual jobsite.

- Machine stabilization
- Proper grounding of electrical strike indication system (ESID)
- Avoidance of underground hazards

## PROPER OPERATION

Our HDD VR Simulator is designed to build understanding of the drilling process confidently and quickly, improving jobsite productivity.

- Functionality and controls mirror an actual Ditch Witch drill
- Fully engages the operator in the seat of the drill
- More interactive and advanced VR simulator than anything in the industry
- Real-time bore path monitoring—see it on the screen as it's happening

## WE GET CREWS READY

Whether in the field, in the classroom, or in the seat of our new HDD VR Simulator, we're right there by your side, giving you and your crew the help you need to operate your jobsite safely, efficiently and effectively. Our success depends on your success. You can count on us to not only deliver the most innovative HDD machines in their class, but the training and guidance to use them to their fullest potential, putting more ROI in your pockets year after year.

## CERTIFIED TRAINING FROM DITCH WITCH®

### ONLINE TRAINING

Ditch Witch offers the only free online HDD and Vac Training program, which packs decades of underground construction knowledge into easy to understand courses. HDD topics include: HDD Overview, Best Practices, Drill Pipe, Tracking, HDD Tooling and Drilling Fluid.

### IN THE CLASSROOM

Instructor-led operator training courses cover everything your crew needs to be safe and productive. Our curriculum utilizes a classroom setting over several days to give your crew the foundation to HDD and vacuum excavation operation and jobsite management.

### ON THE EQUIPMENT

Many of our Ditch Witch dealer locations provide simulated jobsites to allow hands-on equipment experience. This allows operators to further their drilling, vacuum excavation and tracking skills using an actual machine in a controlled environment.
