## FM <br> $13 x=$ SYTEM

## FEATURES \& BENEFITS

## POWER TO PERFORM

Powered by an 11.7-hp engine equipped with an optional 500-gallon (1893-L) or 950-gallon (3596-L) tank, matching the needs of mid-size utility-installation jobs. Supports all sizes of HDD drill units.

## INCREASED PRODUCTIVITY

Features a high-performance Flomax ${ }^{\circledR}$ pump, delivering 200-gpm (757-l/min) of 42-viscosity drilling fluid.

## ENGINEERED FOR EFFICIENCY

A one-piece mixing jet handles 8 bags, yielding up to 950 gallons (3596-L) of fluid in fewer than 8 minutes.

## CUSTOMER-DRIVEN DESIGN

Includes a new wet hopper design, increasing the venturi inlet from 1.25 to 2 inches-a 60 percent larger opening for material flow and superior fluid mixing. Steep sides incorporated in design to help speed mixing cycles.

## EFFECTIVE OPERATION

The tank's sloping bottom ensures unit effectiveness, allowing drilling fluid to be thoroughly mixed and flow through the pump.

## UNDENIABLE DURABILITY

Features powder-coated finish, making the unit more durable, economical and resistant to chips, rusting or fading.
